2. Frequently Asked Questions (FAQs)

Q: How can I recharge my Airtel DTH?

A: Use the Airtel Thanks app, official website, or UPI apps. Enter your Subscriber ID and choose a plan.

Q: What should I do if channels are not showing?

A: Make sure your account is active. Refresh by giving a missed call to 8448284708.

Q: How do I find my Subscriber ID?

A: Press the 'Menu' button on your remote > Go to 'My Account' > Find 'Subscriber ID'.

Q: Can I change my DTH pack?

A: Yes, log into the Airtel Thanks app or website and go to Manage Packs > Change Plan.

Q: How do I book a technician visit?

A: Use the Airtel Thanks app > Help > Book Technician, or call 12150.

Q: Can I upgrade from SD to HD?

A: Yes, request upgrade via customer care or app under Upgrade Set-Top Box.

Q: Are there charges for relocation?

A: Yes. Relocation charges vary by location. Book via app or call customer service.

Q: How to activate missed channels?

A: Send a refresh request through the app, or give a missed call to 8448284708.

3. Troubleshooting Guide

Issue: Remote not working

Solution: Check battery. Long-press the power button. Try resetting the remote.

Issue: No signal

Solution: Dish might be misaligned. Restart set-top box. Contact technician if unresolved.

Issue: Error Code 4

Solution: Signal problem. Try account refresh. Check for weather interference or call support.

Issue: Set-Top Box not turning on

Solution: Verify power cables. Plug into a working socket. Try another power adapter.

Issue: Poor video quality

Solution: Check HDMI/AV cable connections. If using HD channels, ensure your pack supports HD.

Issue: Audio not syncing

Solution: Restart your set-top box. Adjust audio output in the box settings.

Issue: Forgot parental lock password

Solution: Contact customer care to reset. Default pin may be 0000 or 1234.

Issue: Set-top box heats up

Solution: Ensure ventilation. Do not place on beds or covered surfaces. Turn off when not in use.
